This is the ultimate luxury day Charter Yacht. The boat herself is more like a futuristic spaceship. She is every bit of her 76-foot 1-inch LOA, but at the same time, she retains an undeniable sleekness in her lines. Moving into the cockpit, it's impossible not to notice the large aft sunpad, but what is easy to miss is the equally large Jacuzzi it conceals. That Jacuzzi can be filled with fresh water or continually pumped seawater. The aft galley is dominated by an expansive, super-modern-looking glass bar that leaves no doubt as to this boat's entertaining credentials. Meanwhile large, sharply angled side windows let in tons of light—but that's not all. Thanks to smart glass, at the push of a button the windows can frost or tint to whatever shade you prefer. Jet Ski , Jacuzzi and Floating Mat
